

5 INTERNATIONAL COMPETITION

■ “Karst under protection – gift for the future generations”

The Competition is a Bulgarian initiative (2005) and is organized by the Experimental Laboratory of Karstology at the National Institute of Geophysics, Geodesy and Geography in the Bulgarian Academy of Sciences and by the Foundation Center on Karstology “Vladimir Popov”. The Fifth edition of the Competition is included in the program of International Year of Caves and Karst (IYCK), announced by the International Union of Speleology (UIS) under the motto „Explore, Understand and Protect”.

For all who are interested in karst and caves:
pupils, teachers, university students and professors, naturalists (no age limit)
